<u>Chain of Custody</u>

1. (12:15pm) - Investigators receive and begin examining process of hard drive on February 26, 2015. Write down drive make and model information.

2. (12:19 pm) - Hard drive connected to write blocker.

3. (12:26 pm) - Hash of hard drive calculated.

4. (12:34 pm) - Image acquired from hard drive and stored on sanitized media.

5. (12:37 pm) - Sha1 hash was calculated from the image and compared to hash value of hard drive. Both values were: 9b42fa2d3ff86eaaaa36a06eed628fc380f349ce. It can be concluded drive and image have exact same information.

6. (12:38 pm) - Host Protected Area (HPA) and Device Configuration Overlay (DCO) were inspected. None were found.

7. (12:40 pm) - Hard drive was given back to Lab monitor on February, 26 2015.
